Casa Loma Will Be Turning Into Toronto's Biggest Haunted House This October

Sara Sandham · September 30, 2016

Casa Loma, Toronto's very own castle is turning into the cities largest haunted house starting tonight! Guests will be guided by Dracula himself throughout Casa Loma's grounds while being greeted by the ghoulish characters whom will be lurking in the shadows.

The best part is, you'll even get to visit the underground tunnels beneath Spadina, which few Torontonians get to explore! The performances will be running up until Halloween (Oct. 31st) so be sure to get your tickets soon.

This would make an awesome date night activity, or a great way to explore a historical part of the city with a group of friends.

If you're looking the the ultimate fall activity to get you in the Halloween spirit, you've found it!
